

Definitions High Level Summary of Findings

I. Terms or acronyms used that would be helpful to define

1. Direct PM2.5 Emissions
2. Ark. Code Ann.
3. NESHAP
4. MACT
5. NSPS
6. RACT
7. Mandatory Federal Class I area
8. FR
9. C.F.R.
10. Working Days or Business Days
11. Part 70

II. Terms defined but not used outside of their own definition

1. Total suspended particulate
2. Liquid-Mounted
3. Lowest Achievable Emission Rate
4. NAAQS State Implementation Plan or NAAQS SIP
5. Single Coat
6. Title I Modification
7. Top Coat
8. Vapor-Mounted
9. Coaxial System
10. Leak Free

III. Terms used in a different form than what is in the definition

1. 12-month period vs. twelve (12) month period or 12 month period
2. New Source Standard of Performance vs. New Source Performance Standards
3. "Emission Unit" vs "Emissions Unit"
4. "Dual Point System" vs "Dual Point Vapor Recovery System"
5. "Conditions of air pollution" and "Condition of Air pollution"

IV. Similar terms that could be consolidated into a single term

1. "Regulated Air Pollutant" and "Federally Regulated Air Pollutant"
2. "Plan" and "State Implementation Plan"
3. "Draft Permit" and "Proposed Permit"
4. "Act," "Federal Clean Air Act," "Clean Air Act," "FCAA"
5. "Air Contaminant" and "Air Pollutant"
6. "EPA" and "Administrator"

V. Terms defined differently in multiple regulations or in multiple places in the same regulation

1. Modification
1. Actual Emissions
2. Air Contaminant or Air Pollutant
3. Control Apparatus
4. Department
5. Emission unit or emissions unit
6. Equipment
7. Fugitive Emissions
8. Hazardous Air Pollutant
9. Potential to Emit

Definitions High Level Summary of Findings

- | | |
|--------------------------|---------------------|
| 10. Stationary Source | 14. Operator |
| 11. Title I Modification | 15. Delivery vessel |
| 12. Administrator or EPA | 16. Gasoline |
| 13. Major Source | 17. Owner |

VI. Terms defined in at least one regulation but used in a regulation where it is not defined

- | | |
|---|--|
| 1. Emissions Allowable Under the Permit | 34. State Implementation Plan |
| 2. Initial Permit | 35. Upset Condition |
| 3. Permit Modification | 36. Volatile Organic Compound |
| 4. Permit Revision | 37. Acid Rain Source |
| 5. State | 38. Administrative Permit Amendment |
| 6. Air Pollution | 39. Air Pollutant or Air Contaminant |
| 7. Condition(s) of Air Pollution | 40. Applicable Requirement |
| 8. Equipment | 41. Designated Representative |
| 9. Fuel burning equipment | 42. Draft Permit |
| 10. Flue or stack | 43. Emissions allowable under the permit |
| 11. Hazardous Air Pollutant | 44. Final Permit |
| 12. Incinerator | 45. Initial Permit |
| 13. Modification | 46. Part 70 Permit |
| 14. National Ambient Air Quality Standard | 47. Part 70 Source |
| 15. Operator | 48. Permit Modification |
| 16. Owner | 49. Regulated Air Pollutant |
| 17. Particulate Matter | 50. State |
| 18. PM2.5 | 51. Throughput* |
| 19. PM10 | 52. Nonattainment area* ¹ |
| 20. Refuse | 53. Secondary Emissions ² |
| 21. Advance Notification | |
| 22. Construction | |
| 23. Emission Limitation and Emission Standard | |
| 24. Emission Unit | |
| 25. Existing Source | |
| 26. Federally Regulated Air Pollutant | |
| 27. Gasoline | |
| 28. Gasoline Dispensing Facility | |
| 29. Major Source | |
| 30. New Source | |
| 31. New Source Performance Standard (NSPS) | |
| 32. Person | |
| 33. Plan | |

¹ *Terms Throughput and Nonattainment area are used differently than defined in Reg. where definition occurs.

² Secondary emissions is defined in Regulation No. 19, but only used in Regulation No. 18
