To comply with Act 1104 of 1995, please complete the following Financial Impact Statement and file two copies with the questionnaire and proposed rules.

SHORT TITLE OF THIS RULE Permit Fee Regulations

- Does this proposed, amended, or repealed rule or regulation have a financial impact?  
 Yes X No \_\_\_\_\_
- If you believe that the development of a financial impact statement is so speculative as to be cost prohibited, please explain.

The Department does not expect that additional expenses will be incurred as a result of this amendment. Currently, air permit fees are automatically raised each year, regardless of the fund balance maintained for air pollution control programs. The regulation would allow the Department to avoid automatic escalation of all air permit fees. The fees are determined by the amount of emissions that each facility is permitted to emit. Determining the amount would require recalculation of permit fees for hundreds of permitted facilities.

- If the purpose of this rule or regulation is to implement a federal rule or regulation, please give the incremental cost for implementing the regulation. Please indicate if the cost provided is the cost of the program.
