Post Office Box 551
Little Rock, AR 72203

Consulting Engineers:
Benham, Blair & Affiliates, Inc.
1150 One Union Plaza
Little Rock, AR 72201

This permit is your authority to construct, operate, and maintain the waste disposal system set forth in your application dated June 26, 1979. This permit is issued subject to the provisions of Act 472 of 1949, as amended (sec. 82-190 et seq., Ark. Stats.) and the following terms and conditions:

1. The disposal system shall be constructed in accordance with the final plans and specifications as approved by the Department of Pollution Control & Ecology.
2. This permit shall automatically terminate unless construction of the disposal system has been commenced within 6 months of the date hereof and completed with all reasonable diligence. The Department shall be notified in writing when the disposal system has been completed in order that it may be inspected.
3. The disposal system shall be operated by qualified personnel and maintained in good operating condition at all times.
4. By-passing of the disposal system is prohibited and will result in revocation of this permit and/or other appropriate enforcement action by the Department.
5. There shall be no increase in the volume or strength of the waste being treated by the disposal system except within design limits covered by the plans and specifications approved by the Department. No extension or modification of the disposal system may be made without the issuance of a new permit.
6. This permit may be revoked or modified whenever it is necessary, in the opinion of the Department, to prevent or abate pollution of any waters of the State.
7. Nothing herein contained shall be construed as releasing the permittee from any liability for damage to persons or property by reason of the installation, maintenance, or operation of the disposal system.
8. This permit is issued in reliance upon the statements and representations made in the application and the plans and specifications and the Department has no responsibility for the adequacy or proper functioning of the disposal system.
9. Any discharge from the facilities permitted herein shall as a minimum conform to effluent limitations required under the federal National Pollutant Discharge Elimination System.
